## Market Burglary, Suspects Arrested

Cigarets, \$95 Taken At  
Gutting-Gardner Today;  
School Thefts Solved

Burglars stole about \$95 in cash and cigarettes from the Gutting-Gardner market, 2237 Illinois avenue, early today, and Granite City police arrested two suspects on hour and 25 minutes later.

No charges were filed but the pair was being held this afternoon for investigation.

The report was made to Granite City police at 12:20 a.m. Three persons were seen running from the store. Two youths were picked up at 1:45 a.m.

Entry was gained through the front door. The door was not locked or the burglars had a key, police said, as there was no sign of forced entry.

The cigarette rack was moved to the rear of the store where an undetermined amount of cigarettes, mostly of one brand, were removed. The cigarette stand was ransacked, and burglars removed about \$15 in change from a drawer below the cash register. A cloth bag with about \$80 in rolls of cash was taken from under a counter.

Boys Arrested

Police also picked up four of five boys this week ranging in age from 10 to 14 years old for burglaries at two schools last weekend and some of the loot has been recovered. The boys were referred to Coordinated Youth Services.

The burglaries occurred at McKinley school and Central junior high school, both of which were ransacked and damaged.

Police have recovered a typewriter and pens taken from McKinley school and a postage stamp stolen from Central. Still missing are a diamond ring and a new wallet which had been purchased as a gift.

Some of the boys denied taking part in ransacking and damaging the buildings, and CVS and police officers were trying to determine by whom responsible.

Parents of the boys, three of whom were 10 years old, also were called in for talks.

## Annual Scout Camporee To Begin Friday Night

Several hundred Quad-City Boy Scouts and leaders will go to Heaver Dam State Park near Carlinville, Illinois, today for the annual United district fair camporee, camping out until Sunday.

Activities will include fishing, a nature hunt and identification, physical fitness competition and other district contests.

## Rain Factor In 3-Car Venice Viaduct Crash

A three-way crash at 7 p.m. Tuesday at the Broadway viaduct and McKinley avenue, Venice, damaged the right front end, hoodlight and right fender of the eastbound auto of Sigmond Mulak, 626 Lincoln avenue, the back bumper and left front of the eastbound vehicle of Adele Deckard, 720 Brown street, and the entire left side of the westbound car of Louis Mistor, 1818 Broadway, all of Venice.

Police were told Mulak applied the brakes but he failed to rain-wet pavement into the rear of the Deckard auto, knocking it against the Mistor car.

## Madison Police Force To Get Dog

Sgt. Dutko Named As Master; Rotary, Lions To Divide \$800 Cost

The Madison police department's public safety efforts will be aided soon by the addition of a trained police dog.

The Madison city council Tuesday night authorized Mayor Stephen Maeras and City Clerk Percy Lux to execute a contract with the Bonnie De Terre Work Dog Co., Inc., Urbana, Mo., to obtain a trained dog at a cost of \$800.

Sgt. Frank Dutko, city humane officer, was selected as the dog's master and will leave Sunday for Urbana for a two-week training period. He will receive no extra pay, but will keep and shelter the dog.

The initial cost is being financed by the Madison Lions club and the Madison Rotary club as a civic project, shared partly by two November programs—the Rotary smorgasbord and Lions white elephant auction.

Mayor Maeras noted that there will be other expenses, such as providing suitable quarters for the dog at the Dutko home and a cage trailer to transport the dog. He added that the city's liability coverage will in no way be affected.

"It will offer our people additional security," he said, adding that "anxiety and worry have been lessened since the recent capture of a house burglar." He credited the work of the Madison and Venice police departments for apprehension of the burglar.

No parking zone

No parking on either side of Madison avenue between Second and Third streets took effect today, as the city council authorized the mayor to request the State.

Deputy Coroner Henry Pieper said death was due to a skull fracture. He will conduct an inquest at 7 p.m. today.

An assistant foreman, Mr. Clarke was employed by Illinois Terminal since 1924.

Survivors include his wife, Hazel R. Clarke; a son, Edward Clarke, serving with the Army in Alaska; a daughter, Mrs. Albert Ott, Port Angeles, Wash.; three sisters, Mrs. Anna Porter, Alton, Mrs. Emma Kistner, Cedar Lake Highland, Calif., and Mrs. Pauline Tindley, Alton; three brothers, Russell Clarke, Godfrey, Charles Clarke, Alton, and Walter Clarke, St. Louis, and six grandchildren.

Funeral services are pending at Alton.

PRINCIPALS AT UNITED FUND "blast off" banquet Tuesday night included, from left—Joe Fedora, Granite City high school baseball coach; Dal Maxwell, St. Louis Cardinals shortstop, and A. P. Steinhauer, general chairman.

## \$17,607 Collected As UF Starts On 'Moon Journey'

A total of \$17,607 has been collected in the infant stages of the Tri-Cities United Fund, Inc. 1964 "blast off" campaign.

The United Fund office said this is about 5 1/2% of the \$312,213 goal. The campaign started Tuesday night and will continue to Nov. 5.

Space travel is the theme and workers are astronauts in the record-breaking trip to the moon.

No totals for the seven soliciting divisions are available as yet. Report meetings are scheduled for next Monday, Oct. 25, Oct. 30 and Nov. 5.

"Over The Goal" Appeal

A. P. Steinhauer, general chairman, urged enrolled workers at Tuesday night's "blast off" banquet not to be content with hitting the \$312,213 goal.

"We've got a real job to do," he said. "We can go as high as \$350,000 but it will take team spirit—like that of the Cardinals."

He was referring, of course, to the spirit shown by St. Louis baseball Cardinals in last season's pennant drive against the Los Angeles Dodgers.

The Cardinals' second-place finish, Dal Maxwell of Granite City, was the featured speaker at the "blast off." He was introduced by Joe Fedora, Granite City high school baseball coach.

Maxwell said as a youngster in Granite City, he participated in the programs of the YMCA, the Boy Scouts and the "Y" Teen-Town—three of the 18 agencies under the local United Fund program.

Maxwell thanks U.F.

"I don't know at the time who said for a great part of this. Now that I do know, I like to express my thanks to the United Fund," he said.

Turning to baseball, the talented infielder said the hardest pitchers for him to hit were Don Drysdale and Sandy Kousser of the Dodgers, Juan Marchetti of the Giants and Don Cardwell of the Pirates.

One of Kousser's greatest attributes, he said, was the use of the slider.

The coronation was held following presentation of the Homecoming play, "Goli In The Hills" or "Dead Sister's Secret," and was witnessed by a full house of about 800 persons. Both the play and the coronation, conducted by Miss Arlette Alexander, retiring May queen, will be repeated at 8 o'clock tonight.

## Grocer's Cleaver Frightens Off 2 Hold-Up Men

Two would-be hold-up men, one wielding a sawed-off shotgun, were frightened off last night by a Venice market proprietor with a meat cleaver.

Sam Rosecaruso, 69, of Saint's Market, 1433 Market street, told Venice police the attempt occurred about 6:15 p.m. yesterday.

He said a Negro man, about 25 to 30 years old with light skin and wavy red hair, entered the store and purchased a pack of gum.

Rosecaruso said then he saw the man talking with another person in a black automobile parked near the store. A few minutes later the second man—a slender light-skinned Negro with black hair, about 20, wearing a blue shirt and dark jacket entered with the shotgun.

The proprietor was behind the counter near the cash register.

Threat By Bar

"Get away from there or I'll blow your brains out," said the gun-wielder.

Rosecaruso, waving the knife, said he saw the men.

Similar exchanges went on for several minutes, he told the Press-Record, and finally the red-haired man reentered apartment to see what the delay was.

Rosecaruso finally walked toward the men, and the men were going to call police. The robbers fled, driving east on Market street.

Venice police gave chase but were unable to locate the pair.

Mere .02 Inch Of Rain Tuesday

While other areas enjoyed a half inch to an inch of rain Tuesday evening, the Quad-Cities official rain gauge measured a mere .02 inch of precipitation, it was reported Wednesday morning.

The gauge at the Chain of Rocks canal locks, maintained by the U. S. Army Corps of Engineers, measured .02 inch.

Added to the .10 inch recorded on Saturday morning, the Quad-Cities rainfall totals 12-inch for the first half of October.

That's all that has fallen since Sept. 12 when .58 inch was recorded.

So far this year, there have been only three months in which more than two inches of rain have been recorded. The normal averages are more than three inches for each month.

In September, there was 1.05 inch; August, 1.66 inch; and July, 1.49 inch. June was a trifle wetter with 2.34 inches and May was a top month with 5.26. However, only .262 inches fell in April, and the peak was in March with 5.32 inches.

Only .31 inch was recorded in February and 1.46 inch in January. The total for the year stands at 21.63 inches, still nearly nine inches below normal.

## City-Wide Vote On Interceptors Planned For Nov.

Tie-In With Treatment Plant; Council Expected To Decide Next Monday

An unofficial agreement to financing sewer treatment plant and interceptor sewer construction with a combination of revenue and general obligation bonds was reached by Granite City council members meeting informally Monday night.

The decision, agreed upon by nine of the aldermen present, will be subject to approval at a regular session of the council. It is hoped the program can be worked out in detail for presentation at next Monday night's meeting.

A timetable was outlined by Bond Attorney William Bittler, who suggested that if general obligation bonds are decided upon that an election should be called later in November. This would be barely in time to meet the Dec. 1 deadline set by the state Sanitary Water Board for the city to show proof of a bond issue.

Under the preliminary agreement, the treatment plant would be erected with revenue bonds, and the interceptors are proposed to be built with funds from a general obligation bond issue.

Bond Authorization Methods

Beatty explained that an election is required for general obligation bonds, while council action could authorize the revenue bond issue unless an election is petitioned.

Also present for the informal meeting were city engineer, project engineer, and Leonard Crawford, consulting engineer; R. H. Murray, fiscal agent, and City Atty. George Elloff Jr.

The preliminary construction costs and charges to users were discussed, the engineers and fiscal agent said revisions could be made to divert municipal sewage to the treatment plant, leaving storm water and suitable industrial cooling water to flow directly to the river.

\$800,000 Savings On Plant

The engineers said \$300,000 could be saved in treatment plant construction costs with interceptors. Also the interceptors would be used to divert municipal sewage to the treatment plant, leaving storm water and suitable industrial cooling water to flow directly to the river.

The initial interceptors would add 35% to the capacity of the sewers, Juneau said.

Cost of the treatment plant without interceptor sewers would be \$1,715,000, while a smaller treatment plant with interceptors would cost an estimated \$1,417,500.

Interceptors would cost \$2,200 to build, according to the preliminary estimates.

Flat Fee Charge

Flat fees are to be charged for the treatment plant constructed rather than a sliding scale arrangement.

Fiscal Agent Murray said the monthly cost, subject to changes, for a single family dwelling is \$1.50.

## Radio Bares During Night, Tips 'Burglary'

Granite City police telephoned a woman Wednesday morning to ask her to turn down her radio, and the woman, who was moving into another house, found that it had been burglarized—apparently by children.

She is Mrs. Rae Callender, who was having furnishings moved into a house at 2300 Lincoln avenue, including a radio and phonograph. After the phone call she returned to the house, thinking she may have left one of the two turned on.

A man residing across the street complained to police that the blared throughout the night.

Nothing was reported missing, but baby's toys were scattered on the basement floor and other toys were taken from the garage and found scattered about.

Method of entry was not determined.

## Newspaper Offers \$500 Reward After Shots At Windows

A reward of \$500 was offered today by the Press-Record for information leading to the arrest and conviction of the vandals who earlier this week damaged costly plate glass windows and a door at the newspaper office.

Vandals shot holes through plate glass windows and doors on two nights this week—hitting the Press-Record office two nights and other business places in the downtown district.

Police reports showed the initial vandalism at the Press-Record, 1815 Delmar avenue, where holes were shot in a large plate glass window in the new office annex and in a plate glass door in the older section of the building.

Also hit was a plate glass front door at the Factory Outlet Store, 1304 Nineteenth street, and a plate glass window at the new cafeteria of Charles "Bill" Burns, 1218 Nineteenth street.

Wednesday morning it was discovered that another large plate glass window in the Press-Record office annex had been hit twice during the Press-Record week and door was estimated at \$400.

The holes apparently were made with an air pellet gun, believed to have been fired from an automobile. Similar vandalism was reported this week in the Alton and Wood River area.

## 5 DAYS WITHOUT A QUAD-CITY TRAFFIC DEATH

Flat Fee Charge

Flat fees are to be charged for the treatment plant constructed rather than a sliding scale arrangement.

Fiscal Agent Murray said the monthly cost, subject to changes, for a single family dwelling is \$1.50.

Representatives of the Madison Chapter of the Congress of Racial Equality (CORE), were picketing this week at Glick's Department Store, Third street and Madison avenue, Madison.

Owner Joseph Glick told the press-Record he met with Rev. C. S. Evers, Madison CORE president, and other Negro leaders during the summer. Glick said he agreed to add a Negro salesgirl to his staff by fall.

Glick said he has hired a girl on a part-time basis but Evers now insists the agreement was for employment of a Negro on a full-time basis.

Evers was among the pickets at the store. Glick said Negroes were crossing the picket line to enter the store as usual.

Glick added: Self-confidence is the best brand—it sells above par on any market in the world.

**Sweep First Five Places In Tuneup For Conference Run**

Sweeping the first five places and getting its first three runners across the finish line over the short span of two seconds, Granite City high school's cross-country squad easily defeated Assumption high school's cross-country team Sunday afternoon in East St. Louis. Monday afternoon will conclude GCHS's regular season, since next Tuesday's dual meet with Belleville was second in 10:56, John Starn's best performance this fall, and Pat Harris third in 10:48.

In fourth place was Moe Lambert (11:12), while John Bull was fifth in 11:22. Steve Stamps finished eighth in 11:35 and Mike Nichols ninth in 11:42.

Rich Noll of Mascoutah was the only runner to negotiate the AHS course in less than 11 minutes this fall—the Warriors did it in triplicate Monday afternoon.

## GCHS Sophs Down Oilers For 5th Win

Granite City's sophomore football team ran its 1963 football record to 5-0 today, defeating the Alton Oilers 20-0 in the Southwestern Conference's sophomore league Monday afternoon in Alton. The Oilers, who had won their first two games, were defeated 20-0 by Granite City's sophomore team, 14-0.

Coach Roger Mammal's team came up with another good defensive performance, holding Wood River outside the visitors' 30-yard line, intercepting four passes and recovering three fumbles by the Oilers.

Granite City scored at the end of two sustained drives, with halfback Ricky Turner hitting for the one in the first quarter. The Oilers scored on a 35-yard pass play in the third period.

"We looked fast offensively," said Mammal, "and we were able to beat them on this fall by Belleville."

Those two clubs share second place behind Granite City, who are 5-0 in the sophomore league.

## Unbeaten East St. Louis Will Bring Defensive-Minded Club Here Friday

Bent on regaining the Southwestern Conference football championship from Belleville, East St. Louis' tried and tested Flyers come here tomorrow night with plans to spoil Granite City high school's homecoming celebration, or at least that part of it centered around the football field.

Coached by the cryptic and crafty Fred Cameron, who can boast three current Big Ten and Big Eight starters from his clubs of the last three years, East St. Louis has not lost to a Granite City team in 16 years—nor since the 1947 Warriors pulled off a 6-0 surprise in the midst of a losing season.

The defensive-minded Flyers, on his heel in earlier games, Hiles came up with a leg injury this week. "But the doctors say he's come back remarkably well, and while we don't plan to start him, he will play," Morrison said.

And quarterback Jack McKeehan came up with some badly bruised fingers on his right hand this week. The injury prompted Morrison to give Friday's starting assignment to junior Doug Winfield.

Tom Craycraft will be Hiles' replacement at fullback. The remainder of the backfield remains unchanged. Nick Petrillo at left half and Norm Wilfong, the club's best ground-gainer behind Hiles at right half.

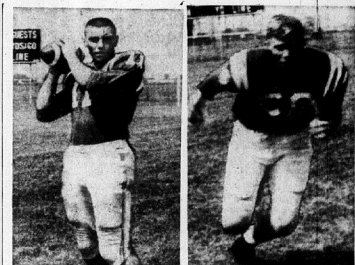

Tim Gibson will move into a starting position as an offensive tackle, completing Morrison's lineup changes from last week.

**Defensive Changes**  
On defense, Jim Nash will move from end to halfback. Mike Mounce will take over his old job at safety from Winfield, and Ron Yates has been moved from end to halfback, where he will join another newcomer, Rick Reutebuch.

Eric Robertson replaces Jerry Lybarger at one linebacker spot, but Lybarger retains his job as right guard on offense. And John Love, who missed last week's game with a mild concussion, will return at a defensive tackle.

"We'll have the best possible at every position," Morrison said in explaining the many changes among his Warriors, who are decided underdogs if the team has any other realistic chances among the East St. Louis victors. "It's our homecoming game, so we'll come to play football."

**Boerckel Returns Home**  
William Boerckel, 1328 Robt. street, Venice, retired Venice township justice of the peace, returned Tuesday night after spending five weeks at Excelsior Springs, Mo.

**LEADING ROLES** in Granite City's 31-0 win over Wood River last week were played by Joe Hiles (left), versatile halfback who rushed for 158 yards, scored twice and kicked one extra point to earn offensive citation as "Fighting Warrior of the Week"; and Eric Robertson, winner of the GCHS coaching staff's defensive "Chuckles Axe Murderer" award for his play at a guard. "His best game this fall," said Coach Jim Morrison, joining the 110% club by extra effort against Wood River—and adding stars to their helmets as a result—were John Evenden (2), Jerry Nelson, Robertson, Ron Yates, Doug Winfield, Norm Wilfong, Jack McKeehan, Nick Petrillo and Ricky Reutebuch.

## Goodwin, Bauer And Johnson Challenging Townsend For Lead In Prep Point Parade

Belleville's Jim Goodwin, Jerry Bauer of Cathedral and Leroy Johnson of Alton have moved up to put pressure on the district's leading high school football point-maker, Joe Townsend of Edwardsville.

Townsend, who moved into the lead with 51 points after getting 19 against Collinsville two weeks ago, could not dent East St. Louis' vaunted defense last Thursday.

Goodwin, meanwhile, doubled his point production with four TD's against Collinsville Friday night to move to within three points of the leader with 48.

Bauer, with three scores against St. Vincent, has stepped up his five-game total to 42 points, as did the Redbirds' Johnson, who counted twice against Decatur MacArthur last Friday.

Other two-touchdown efforts last week by members of the district's current "Top 20" were turned in by Granite City's Joe Hiles (40), St. Louis' Durham and Don Withrow, both of Roxana.

Jim Riess of East St. Louis climbed to 10th place by scoring all of the Flyers' points against Edwardsville on a touchdown run, extra point plunge and a field goal.

## Claude Picks:

East St. Louis' convincing come-from-behind victory over Edwardsville resulted in the only blemish on Claude's Computer's record last week.

The pickin' prognosticator came up with the correct picks in 10 other games, and climbed to a 7-24 average with 42 of 58 winners in the first five weeks of the prep football season.

The mechanical repairs which Claude underwent last week apparently corrected the short circuit which had caused so much trouble and the release of a large amount of misinformation.

Claude hasn't been above .700 this year until now.

Admitting that last week's pick, which had caused so much trouble, the mechanical marvel "views with alarm" some of the contests where he must pick a winner this week.

Bravely, he chooses Belleville Cathedral over Belleville Assumption over Collinsville, Alton over Edwardsville, Wood River over Jerseyville and Roxana over Madison. All shakily, however.

And Claude—the traitor!—doesn't think Granite City can score against East St. Louis, even if it is the Warriors homecoming.

## Atom Soccer Title Will Be Decided Over The Weekend

Gitchoff Agency and Lincoln Place will tangle at 5:45 p.m. today at Wilson Park in a soccer contest which should decide the Atom division fall championship in the YMCA boys' league for young kickers.

The Reds currently hold a one-point edge over their opponents. Both contenders have Saturday afternoon games which will wrap up their regular schedules.

A Monday afternoon Atom division contest went to St. Elizabeth by a 3-0 score over Luaders Agency when St. Elizabeth goalie Pete Kriesche moved out of his own goal and kicked in the deciding goal before the end of the second half.

Bantam division leader Granite City Steel Credit Union added to its margin Tuesday afternoon by tripping Bricklayers Local 65 by a 3-1 score on goals by Philip Bryan, Bobby Galvan and David Cunningham. Tommy Hasty scored for Local 65.

Credit Union leads second-place Gitchoff Agency, St. Louis, even if it is the Warriors homecoming.

Gitchoff stayed in contention yesterday by blanking Roxycki Realty 4-0 at Wilson Park. Jim Forrester scored three goals and Skip Gasparovic one.

# Madison, Roxana Battle For MWC Contender's Spot Tonight

## Shells In Tie For Conference Lead, Trojans Are Third

Roxana, Midwestern conference kingpin until Madison and Cahokia came to the front a couple of years ago, and making title contender sounds again this fall, will host the Trojans this evening in a game which could go a long way in determining how the top MWC clubs will finish in 1963.

Although they have yet to engage Cahokia, Coach Morris "Mo" Tschannen's Shells stand 3-0 in the league race and currently are tied with the Coaches for first place, Madison is 2-1 and holds down the third spot.

**Double Scoring Threat**  
Tschannen, a Highland native, Eastern Illinois University grad and for nine years assistant coach at Roxana under Earl McNamee, has two of the district's leading scorers in his backfield, and they could spell trouble for Coach Glen Pickering and his Big Green.

The Shells' leading scorer (30 points) and rusher is halfback Tom Durban. Plunking him at the other halfback will be Don Withrow, who has scored three touchdowns this fall.

The opponents in tonight's 7:30 contest run a hard-slick, the same type of offense.

Smallest paid attendance recognized by the major leagues for a regularly-scheduled game was 12—when Chicago met Troy in the rain on Sept. 27, 1881, in the National League.

San Sneed has won more PGA golf tournaments than any other in the history of the sport. Ben Hogan has won 52.

the wing-T and, in a good many instances, nearly identical plays. "Pick runs some cross-backs we don't use, but we both could get a pretty good idea of what to look for by scouting our own practices," Tschannen said.

**300-Pound Tackles**  
Roxana's offensive line averages just 170 pounds-per-man, but is anchored by a pair of 200-pound tackles, Larry Bryan and John Red. "We're concerned about their off-tackle stuff," Pickering said, "which is where this type of offense will get a lot of yardage."

Len Harper, a 175-pound junior, may get a chance to perform at fullback for Madison tonight. Pickering said, "He'll spell sophomore Paul Lusk, who rushed for only 22 yards in last week's 13-8 win over Bethalto after picking up 110 the previous week at Dupu.

Madison worked with considerable concentration on pass offense and defense this week. It was late aerial antics which enabled the Trojans to overcome an 8-7 third quarter Bethalto lead last week, and Madison may be forced to the air again tonight.

Quarterback Gary Skinner and halfback Mike Konich teamed up for 113 yards in the air against Bethalto, but neither may be in top shape tonight. Skinner was fighting an "upset stomach" in Tuesday's practice, and Konich came up with one of those off-the-field injuries which makes old men out of young coaches.

He stepped on two nails over the weekend and reported to a doctor's office Monday afternoon for a precautionary tetanus shot which left his arm more tender than the injured.

Madison will not enter the IHSA district event at Alton, will run in the MWC contest next Tuesday at Roxana. The dual run is expected to develop into a battle between Bethalto, Roxana, Highland and defending champion Cahokia.

The change is making itself felt in sportcoats with more color, textures, and bolder patterns. Slacks have followed the trend and are most complimentary to the sportcoats.

Trattler's has followed these trends closely and stayed abreast of these market changes. We can assist you with authority and modify fashion to your personal requirements. We will be happy to analyze what is best for you in terms of fabrics, color and model. Stop in soon for a try-on.

# Day Off For Pupils—Teachers To Institute

Tomorrow for the second week in a row Quad-City area students will enjoy a Friday off while teachers will be attending meetings.

The teachers' institute tomorrow will be for public school teachers from Madison, St. Clair, Bond and Clinton counties, with sectional sessions to be held at schools in the four-county area from 9 a.m. to 1 p.m.

Plans for the institute were made by teachers and the county school superintendents for the four counties—Wilbur R. L. Trimpe, Madison county; Clarence D. Blair, St. Clair county; Dean J. Delany, Bond county; and Norbert J. Moorhead, Clinton county.

One session will be held in the Quad-City with art teachers from the four counties meeting at Granite City high school. Eugene Alesi, art director for local schools, will direct the meetings.

## Madison Group Retains Lawyer In PTA Behalf

An organization called the Citizens of Madison County Schools has obtained an attorney to take possible legal action to make school buildings available to the Parent-Teacher Association for meetings.

Manfred Smith, Wood River lawyer, was hired by Mr. and Mrs. Edward Byrne of Madison Monday night. Mrs. Byrne said they were representing nearly 300 residents of the Madison school district which was organized and supported the effort. The Madison PTA was denied the use of school buildings in 1960 to 1961 parents. The Madison school district was organized three years ago after the Madison junior high school PTA decided to include parents of children in other schools and other persons, it was explained.

Mrs. Byrne, who was PTA president at the time, said PTA membership has grown from four to five parents in 1960 to 167 parents. The Madison board of education at the time favored separate organizations for the separate schools, rather than maintaining a consolidated unit. Organizations in operation included a Mothers' club for an elementary school and a band parents' organization.

Smith said he would write to the school district and ask that the PTA be permitted to use the buildings on the same basis as the band parents and mothers' club. If necessary, he said, an injunction would be obtained. Wensel Brown, superintendent of schools, has indicated a willingness to discuss the situation with the lawyer. Mrs. Byrne said her organization is opposed to the locking of public buildings without sufficient reason.

## New Jobs, Local Responsibility Cited As Goals

Accelerated efforts to achieve economic growth and civic progress were outlined to Granite City Rotarians Tuesday by Chester L. Baker, Chamber of Commerce president, who urged that the local community take full advantage of its many natural assets.

Describing the local potential as "tremendous," he cited "11,000 acres of prime industrial property, an excellent market, outstanding transportation, ample raw materials, rich agricultural land, a never-ending supply of water, low-cost power and labor, a large pool of skilled labor and top-notch schools, churches, parks and hospital facilities."

Along with industrial development and the maintenance of a business climate conducive to expansion of existing firms, 1963-64 goals listed include stepped-up public relations, more emphasis in schools on the free enterprise system, Chamber courses in economic understanding and freedom vs. Communism, legislative action at the national, state, county and local levels, development of a waterway, sewage and drainage improvements, opposition to socialized medicine and large Area Redevelopment spending, adoption of Sunday after closing and assistance of local responsibility rather than looking to Springfield or Washington for help.

"You missed a terrific sale, Smith. . . ."  
Run over us, kick us, strangle us, we don't care just be sure and knock our doors down. Come on in through the plate glass windows, if you wish (and don't think this hasn't happened)! It's OK, just so long as you rattle our shelves. After all, with that large 1 1/2% profit we made, we can afford to replace the windows however, as far as any employees being given medical aid that's a different story. They are informed before being laid that working for Tri-City Gro. Co. is a dangerous job. Many's the clerk we have lost during our huge sales days. . . . they just couldn't get out of the way of customers soon enough. Oh well, no sacrifice is too great for our employees and their families (and after all, we do carry a small pittance of insurance for their families).

## School Contract Change For Night Pay Is Rejected

Proposed establishment of extra pay for teachers assigned night duties, such as taking tickets at sports events, was discussed by the Granite City school board Tuesday night. It was decided to defer consideration until the next round of negotiations with Local 743 in the spring.

Board President Ralph Fricker said it has been suggested that students could be assigned such duties.

Board Member Robert Spengler said he is in sympathy with granting of such extra pay, but that it should be effective as part of an overall agreement.

Ralph Bussie opposed alteration of contracts during the period for which they were signed.

At its meeting last week, the board decided against altering the existing agreement to include extra pay for junior and high school teachers assigned a sixth duty class.

Kaiser To Join In Talks  
With Supt. Harold M. Kaiser reporting that elongated negotiations are taking time, that school administrators otherwise could spend concentrating on improving the educational program, the board authorized him to join in current talks with Building Service Employees Local 98, which represents custodians and cooks. Goal will be prompt completion of negotiations. Other staff members have been participating in the bargaining, Dr. Kaiser afterward.

The July 1962-July 1963 teachers' agreement was not signed until mid-March 1963, and the still unfinished negotiations with Local 98 are for the period beginning July 1, 1963.

Points still not settled with the

## Park Makes \$26,000 Payment On Newly-Acquired Property

Granite City park district commissioners last night authorized the initial payment of \$26,000 toward the purchase price of a 30-acre tract of land along Marysville road near the Glenview subdivision which is to be developed as a park.

The payment will be made to the HWY Development Co., Henry Ross, president. A contract signed by Ross and the park district calls for a second payment of \$10,000 on Sept. 1 of next year and a final \$10,000 payment on Sept. 1, 1965.

The park board plans to erect playground equipment and install one basketball diamond on its newly-acquired property next spring.

The initial payment for the property was included in monthly bills totaling \$34,075 which were approved for payment by commissioners.

Wages for September totaled \$3018. Park commissioners, Park Supt. Harold Brown, community center director John Birdsong and Secretary Frank Lee will attend the annual convention of the Illinois Association of Park Districts and the Illinois Recreation Association Tuesday through Friday of next week in Aurora.

Custodians and cafeteria employees were reviewed in detail, with board members being polled for their opinions.

Act On Differential Affiliation  
It was decided to gradually eliminate a pay differential between cooks. Based on seniority rather than duties, it has existed many years and there are now 28 positions at the upper pay grade which will be eliminated eventually through retirements.

Higher pay levels in the future

## Tension Builds In Dow Strike; Parley Today

Officials of United Steelworkers Local 4804 and Dow Metal Products Co. were scheduled to continue a contract negotiation session this afternoon—the first meeting of the parties in three weeks.

The U. S. Mediation Office, which reported the meeting broke up at noon for lunch. There was no announcement of the progress of the talks which began at 9 a.m. today.

The strike by the 700-member union against the division of the Dow Chemical Co., located in Venice-Madison, today was in its 48th day.

A handful of union pickets continued their vigil outside the company's main gate and there were no reported incidents—no contract to events earlier this week.

Tension mounted this week as the steelworkers—perhaps feeling the pinch of being without regular employment for the past month—became more active in picketing.

Tuesday morning, about 200 union members blocked all entrances to the Dow plant in mass picketing and refused to admit non-union workers and management. The demonstration ended about noon Tuesday and management entered the plant.

Last night, according to Venice Police Chief Frank DeWitt, about 10 or 12 men attempted to stop employees from leaving the plant at midnight. DeWitt said a squad car was dispatched and police took up the disturbance.

A regular union meeting was scheduled for last night at the Granite City Labor Temple but union officials could not be reached for comment this morning.

Meeting Postponed  
The mass picketing Tuesday came the day after the newest

## Stidham Suffers Eye Injury At Steel Plant

George Stidham, 153 Trocker lane, Mitchell, secretary of the Granite City school board and an employee of the Granite City Steel Co., cold strip department, was injured at the plant Tuesday evening when a steel sliver became imbedded in the pupil of his right eye.

After treatment that night, the sliver was removed yesterday. He has returned to work but is to receive additional treatment to the eye and eyelid. Vision was restored, and it has not been determined whether there will be blurring.

## Man Not Some Cook

The Wallace Cook who was arrested on a charge of aggravated assault last Sunday is not the man with the same name who lives at 4224 Lake drive, his wife reported today. The address of the defendant was not available for an item printed in Monday's edition. The address was not listed on police reports.

negotiating session was scheduled. Originally set for yesterday, the meeting was postponed until today.

Bernard O'Keefe, federal mediator, said the demonstration caused the postponement. Company men, he said, simply needed the extra day to restore order in the plant and catch up on pre-picketing work.

George Becker, president of Local 4804, said the picketing was aimed at stopping shipment of products manufactured by supervisory personnel during the strike.

A company spokesman told the Press-Record last week that equipment was being operated in order to meet "critical customer demands."

DeWitt and two policemen were at the scene. There was no violence with the shut-out management waiting patiently along the street. The demonstration drew many spectators from nearby homes.

## Pay For County Zoning Board Approved Today

The Madison County Board of Supervisors at its monthly meeting today approved daily pay of \$15 and a 10-cent mileage payment for members of the County Zoning Board.

Appeals members when engaged in official business. Legal approval by the state's attorney was reported.

Salary of the county civil defense director was set at \$101 a month, and the supervisors appropriated \$500 in motor fuel tax funds to conduct a county highway traffic study.

A \$2700 low bid from the William Baker Building Cleaning Co. was accepted for county jail whitewash repairs, and the county jail was awarded a contract for the courthouse and county jail to 19th street off State and did not see her until he hit her. He stopped immediately.

Man Obtains Venue Change On 3 Charges  
David Keel, 20, of 1619 Delmar avenue, obtained a change of venue yesterday from the court of Police Magistrate Garipovic to that of Justice of the Peace Harry Hartman.

He was arrested Sept. 30 by Granite City police on charges of aggravated assault, criminal damage to property and disorderly conduct after a chase by police early that morning. He is at liberty under \$40 property bond.

## Weed Fire Reported

A fire in a field was reported at 6:55 p.m. Wednesday to weed fire at Oaklawn Terrace and West Jandy lane. The fire was out at 7:30 p.m.

## Auto Knocked

Mrs. Opal Blevins, 60, of 2706 Cayuga street, was struck by a car and injured as she was crossing the street at 19th and State streets at 3:45 p.m. Tuesday.

Driver of the car, Albert Cochrane, 25, of the 293rd Engineer Group, Granite City Army Depot, told police he was turning onto 19th street off State and did not see her until he hit her. He stopped immediately.

Mrs. Blevins was admitted to St. Elizabeth Hospital with pains to her back, right wrist, left leg and hip. X-rays were taken.

## Passenger Injured

Terry Greathouse, 16, of 1918 Benton street, a passenger in an auto driven by David C. Greathouse of the same address, was injured when the car was struck in the left side by one driven by Ernest E. Japowick, 45, of 222 Sheridan avenue.

There was no report of treatment at St. Elizabeth Hospital. The accident occurred at 21st street and Cleveland blvd. The police accident report said Japowick was heading west on 21st street and failed to yield the right-of-way. The front of his car was damaged.

Autos driven by Carl E. Hozian, 27, of 1416a Eighteenth street, and Eugene Williams, 24, of East St., collided at 1:30 p.m. Wednesday in the 300 block of 21st street, Madison.

Williams suffered a bruised right hand when he struck the Hozian vehicle in the rear.

## County Is To Be Assigned School Safety Inspections

"As our county continues to grow, increased personnel will be necessary to carry out the will of the state legislature with reference to legal requirements that schools must meet," County Supt. William L. Truitt said today in submitting his annual report to the County Board of Supervisors.

"When the new building code is filed with the secretary of state about Jan. 1, it will become my duty to make an inspection of all public school buildings relative to fire hazards and safety for children, and to make recommendations to boards of education requesting them to take measures necessary to make these buildings safe."

"With over 150 public schools in the county, this will necessitate some additional help. I trust I will take this in consideration when my budget is presented to the finance committee."

Noting that the County Board of School Trustees met eight times, handling 20 declassification and annexation petitions, two property sales and one easement, Truitt said the work of the trustees "has become quite extensive" during the past year and will continue to increase in importance as additional responsibilities are placed upon them by the legislature.

To Close Out Loanable Fund  
The loanable fund will soon be closed with the final accounting mailed to each of you. The School Code was amended so that from now on the school trustees rather than holding special elections in distributing the fund, would be required to hold school trustee system was abolished.

Truitt said that since Nov. 1, 1961, when his office was made responsible for issuance of high school equivalency certificates in this county and administering GED tests in five counties, 646 applications have been received, with 158 failing, 432 passing and 325 certificates issued.

He said his office has spent considerable time in developing joint services for school districts currently provided by three psychologists, a guidance services coordinator, counselor and the secretaries.

Funds received and disbursed in 1962-63 totaled \$7,521,945 to public schools and \$48,045 to parochial and private schools.

Burglars committed a considerable amount of vandalism in the Tri-City Grocery Co. warehouse, 15th and State streets, during last weekend, it was reported at 2:30 p.m. Monday to Granite City police by Sam E. Pershall, president.

Nothing was reported missing, but a vintage automobile, a 1902 Oldsmobile and some soda fountains were smashed. Pershall estimated damage at \$250.

He blamed it on roving youngsters. Method of entry was not disclosed by company personnel.

Mrs. Raymond Kester, 2806 Namoki road, reported to Granite City police at 11:40 a.m. Tuesday that a thief stole a dress-bag and \$50 cash from a dresser drawer in her bedroom during a home burglary.

Darrell Heiman, 18, of 3412 Oakland avenue, reported to Granite City police that a thief stole his black leather wallet containing \$7, his driver's license and other papers from his car as it was parked this morning at 30th street and Grand avenue. He said he left the wallet on the front seat after purchasing gas on the way to school.

**Club To Study Creating Center For Handicapped**

A committee was appointed yesterday by Madison Rotary President, Lewis Waggoner to study the feasibility of establishing a vocational rehabilitation center, which would be financed partly by the state. Physically handicapped workers would be paid to perform such services as small appliance repairs, Waggoner said. The club voted \$400 as half the cost of obtaining and training a dog to be used by the Madison police department. Part of the funds will be derived from the annual benefit Rotary program, 3833 Lake Street, N.W., 10. Vice-President, Larry Palkes announced program assignments, and Wessel Brown was honored at his birthday.

the same overhead delivery for his live baseball and sharp curve. Maxvill said he didn't know if Lew Burdette, Cards' pitcher recently obtained from the Braves, throws the illegal spitball but offered this story to shed light on the matter:

"I was warming up Lew in the Chicago bullpen. After a while, he said he was going to throw a sinker. I was ready for anything but the pitch broke so much I missed it and it hit my knee."

"I hobbled over to the bench and felt my knee. It was wet. At first I thought it was blood but it wasn't."

**Former Granite City Star**

Maxvill, a former star at Granite City High School and St. Louis and Mr. and Mrs. Joe Lekimmo and daughter of Florissant, Mo., visited Mr. and Mrs. James Hoshbire Sunday afternoon.

Washington University praised regular shortstop Dick Groat and the great Stan Musial.

"Stan was probably under more pressure than any ball player in history after he announced his retirement seven weeks before the season ended," he said. "People in the various cities were constantly making demands on his time and he always made himself available. Yet at some time he was always ready to give us a lift with a key hit."

As a token of appreciation, Steinbuser gave Maxvill a model of the United Fund rocket.

Steinbuser recognized many of the campaign workers. To climax the "blast off," the 110 persons attending set off toy rockets with caps.

A United Fund official reminded Quad-Citians who work out-of-town that they may contribute at their place of employment and request the contribution be forwarded to the local fund.

## Ranfts Leave Today On Trade Mission To Europe

Mr. and Mrs. Carl A. Ranft left at 10 a.m. today for Chicago where they will board an airplane to begin a three-week tour of Europe as members of Gov. Otto Kerner's trade mission to seek more outlets for Illinois exports.

Ranft, president of J. C. Ranft Bottling Co. and chairman of the Tri-City Regional Port District, was one of three Illinois port exporters invited by the governor to make the trip.

The local business leader was asked by Gov. Kerner that top level representatives of industry and marine transportation in Europe will be met in an effort to stimulate growth for traffic on the St. Lawrence Seaway, the port of Chicago and the Tri-City Port.

The other two port exporters making the trip will be William B. Miller, a marine attorney and chairman of the Ports and Harbors committee of the Chicago Association of Commerce and Industry, and Frank Rathje, vice president for transportation at the Continental Illinois National Bank & Trust Co., Chicago.

In all, about 140 Illinois businessmen and manufacturers will be in the party. From Chicago they will go today to Washington, D. C., for a meeting with President Kennedy and a policy briefing with the Department of Commerce.

Aline Rivory, Geneva, Grandflore Kiehlback, Mary Davis, Joyce Frick, Marie Albert, Dorothy Westbrook, Bernice Blythe, Charlotte Humphreys, Maxie Greer, Alma Davis, Gladys Potlitz, Louise Potlitz and children, Kirk and Beth, Eva Pulley and Miss Norma Evelyn.

### CLASS MEETS AT WILSON HOME

The Progressive class of Second Baptist Church met at the home of Mrs. Edith Wilson Monday evening. The meeting was opened with singing and prayer, and a devotion was given by Mrs. Minnie Bolen.

Reports from committees were heard. The new project for the month is to send letters of need to the Children's Home at Carroll, Ill.

Closing prayer was given by Mrs. Odella Nale. Others present were Mesdames Elizabeth Barrell, Maude Lewis, Lillian Gregory, Lois Jones, Minnie Cavan, Louise Daniels, Roberta Richardson, Mable Mewer, Rose Harrell, Ruth Helton, Dana Watson, Mattie Cookley, Eva Briggs, Naomi Douglas, Mary Charlton, Golda Smith and Mimi Duggins. The next meeting will be in the home of Mrs. Lena Gardner.

### Howlett To Speak

State Auditor Michael Howlett will speak on "Interest of Illinois Businessmen on Saving Traders' Money" at a meeting of the Alton Rotary Club next Monday. The meeting will start at 6 p.m. in the Stratford Hotel.

### Vandals Hurl Eggs

Vandals hurled eggs on the auto of C. E. Veach, 2077 Rhodes street, last night as the car was parked in a carport at his home. It was reported to Madison police.

### Plant On Canal Bank

It is planned for the treatment plant to be located along the east bank of the Chain of Lakes canal near the present sewer outlet. The city's sewer pumping station is located on depot property.

A map of the proposed interceptor sewers and sanitary sewer lines in three areas of the city still without sewers was displayed by the engineers.

The areas without sanitary sewers include the entire North Granite area, two blocks along Cayuga street and about three blocks in the Nevada-Ohio avenue area. Separate projects which would be financed by the property owners are contemplated.

### Separate Project Costs

Fiscal Agent Murray said the separate projects could be financed with 10-year special bonds or revenue bonds. However, charges to individual property owners have not yet been worked out.

The proposed interceptors would include a trunk extending along Nemois road from Peltier road to East 21st street, and along East 21st and Monroe streets to 21st street. The line then would proceed south on Madison avenue to 16th street and west under the railroad tracks to the treatment plant site at the canal.

The line would pick up most sanitary sewage from the Nemois area and Granite City proper.

Another line would be along 17th street from Edison street to Madison avenue, while another would extend from 13th street to the 16th street interceptor.

### Aid Storm Water Flow

Engineer Juneau said the interceptor would virtually free the present 78-inch communication sanitary and storm water sewer line from 21st street and Washington avenue to the river for storm water. It now runs about 40% full in dry weather.

Under the intercept plan, industries using large amounts of cooling water would be required to build retention basins in the event of a storm and keep the water out of sewers for 24 to 48 hours.

The engineer said that with interceptor sewers the treatment plant capacity would be set at 10 million gallons a day; while without interceptors, the total would be doubled. It was discussed that industries would be required to treat cooling water for direct disposal to the river.

Easy money is dangerous—it's an anesthetic that puts many a conscience to sleep.

### PALESTINE STUDY

World of Friends Sabbath school at Second Baptist Church Tuesday afternoon to continue a study of Palestine. The children set up a miniature village and worked puzzles. Clay objects which were made last week were exhibited.

Those who did not attend last week made their service with the group pointed on last. The group formed a circle for prayer and then sang "If We the Stars of Jesus." The leader read from the book, "Stories of Jesus."

### CLASS CHANGES NAME, ELECTS OFFICERS

The Wisconsin class of Second Baptist Church met Monday evening. The devotion was given by the teacher, Mrs. Evelyn Smith, and the group sang the theme song, "Praise Him In."

Officers for the new year were elected: Mrs. Florence Shaw as president; Mrs. Esther Davis as secretary; Mrs. Dorothy Evans as treasurer; Mrs. Shaver as reporter; Mrs. Louise Potlitz as publicist; and group captains, Mesdames Marie Gibbs, Ruby Harp and Frances Smith.

The group decided to change the name of the class to the Southern class. Closing prayer was given by Mesdames Shaver, Elsie and Myra Gloor.

Others present were Mesdames Frances Feldman, Steddie Liza, LaVerne Finnell, Norma

### Howlett To Speak

State Auditor Michael Howlett will speak on "Interest of Illinois Businessmen on Saving Traders' Money" at a meeting of the Alton Rotary Club next Monday. The meeting will start at 6 p.m. in the Stratford Hotel.

### Vandals Hurl Eggs

Vandals hurled eggs on the auto of C. E. Veach, 2077 Rhodes street, last night as the car was parked in a carport at his home. It was reported to Madison police.

### Plant On Canal Bank

It is planned for the treatment plant to be located along the east bank of the Chain of Lakes canal near the present sewer outlet. The city's sewer pumping station is located on depot property.

### Separate Project Costs

Fiscal Agent Murray said the separate projects could be financed with 10-year special bonds or revenue bonds. However, charges to individual property owners have not yet been worked out.

The proposed interceptors would include a trunk extending along Nemois road from Peltier road to East 21st street, and along East 21st and Monroe streets to 21st street. The line then would proceed south on Madison avenue to 16th street and west under the railroad tracks to the treatment plant site at the canal.

The line would pick up most sanitary sewage from the Nemois area and Granite City proper.

Another line would be along 17th street from Edison street to Madison avenue, while another would extend from 13th street to the 16th street interceptor.

### Aid Storm Water Flow

Engineer Juneau said the interceptor would virtually free the present 78-inch communication sanitary and storm water sewer line from 21st street and Washington avenue to the river for storm water. It now runs about 40% full in dry weather.

Under the intercept plan, industries using large amounts of cooling water would be required to build retention basins in the event of a storm and keep the water out of sewers for 24 to 48 hours.

The engineer said that with interceptor sewers the treatment plant capacity would be set at 10 million gallons a day; while without interceptors, the total would be doubled. It was discussed that industries would be required to treat cooling water for direct disposal to the river.

would be about 90 cents for the smaller treatment plant, while the larger plant would cost close to \$1.25. Apartment owners would pay on the basis of the number of units in the building.

For commercial and large water users, the payments would be about 50% of the amount of water bills. In the event a business or industry uses well water, it would be necessary for the water flowing into the sewer to be metered by the city.

Murray explained that revenue bonds could be financed over a period of 35 to 40 years. The city is considering 35. General obligation bonds are limited to 20 years, he explained, adding that there is little variance in the interest rates.

For the construction of a treatment plant, the city is anticipating that Granite City Steel Co. will build a sewerage treatment plant.

### Bond Issue Cost Estimates

The cost of a general obligation bond was set at five cents per dollar. The cost of a general obligation bond was set at five cents per dollar. The cost of a general obligation bond was set at five cents per dollar.

Murray said the city also could finance the project entirely with revenue bonds, which would be sold at a premium.

However, council members present said they preferred a combination of revenue and general obligation bonds. Of the 16 aldermen present, only Deputy Mayor J. D. Bergfield failed to respond as Pollution Study Committee Chairman.

### Official Endorsement

Those present favoring the proposal, subject to full council approval, were Mayor Davis and Aldermen William McGuff, Ford Johnson, Steve Bascak, Samuel Whitmer, Earl Thompson, Casser Skahish and William Dallas.

Absent were Walter Nunn, Clyde Boyd, Edmond Barriosak, Mrs. Gabrielle Bettine and G. H. Merion.

Merion said a location for the treatment plant also is of prime importance. He added that the site on Granite City Army Depot property is not available.

He added that the treatment plant could run a quarter to a half-million dollars.

Bond Atty. Beatty said he is preparing a letter to be sent off this week to the Chicago district office of the Corps of Engineers to seek permission to use the depot property.

### Plant On Canal Bank

It is planned for the treatment plant to be located along the east bank of the Chain of Lakes canal near the present sewer outlet. The city's sewer pumping station is located on depot property.

A map of the proposed interceptor sewers and sanitary sewer lines in three areas of the city still without sewers was displayed by the engineers.

# NEWSPAPERS MAKE A BIG DIFFERENCE IN PEOPLE'S LIVES

NATIONAL NEWSPAPER WEEK OCT. 13-19, 1963

## 25 YEARS AGO

MONDAY OCT. 13, 1938

Officers of the American Legion were installed Thursday night in special ceremonies at the Hotel Lincoln. Installed were Leo J. Conner, commander; Frank Steinhilber, vice-commander; E. D. McBrat, adjutant; Joe Bergdorf, finance officer; George Brenner, service officer; John Dittman, chaplain; and Cyrus Reeder, sergeant-at-arms.

An estimated \$75,000 to \$100,000 damage was caused by the Thursday night at the Smith Boulevard, Ind. fertilizer plant six miles northeast of Granite City.

Miss Bernice Greenendorn entertained her bridge club Saturday at the Hotel Lincoln. Players included Mrs. A. J. Schleicher, Miss Edna Hakest, Miss Loretta Ehrhard, Mrs. Lester Ehrhard, Mrs. Leo Hansen, Mrs. Clarence Stook and Miss Clara Gruber.

Granite City's Happy Warriors blanked the East St. Louis Flyers 13-0 Friday night in a Southwest Conference football game.

Madison's Trojans lost to Belleville 24-0 and Venice defeated Rock Junior High school of East St. Louis, 7-0.

The Warriors made their first touchdown in the second quarter shortly after Eddie Mueller went into the game. In four plays, Granite City marched 81 yards. John Petri caught a 20-yard pass from Yates for the touchdown. Petri's mother was in the audience and saw her first touchdown pass.

The second touchdown was scored on a pass from Yates to Mueller.

Malcolm Mitchell of Mitchell has returned home from Madisonville, Ky., where he visited several days with friends and relatives.

Junior Beaver, Billie Miller, Ed and Ned Tapp, Elmer and Robert Howard, Charles Barnett, Eddie Leonard, Paul Miller and James Tolley of Venice enjoyed an outing yesterday at Monks Mound. There were accompanied by their Sunday school class teacher, Clifford Barr.

## The FORUM

CLOSING OF TAVERNS WOULD BRING HAPPINESS TO THE EDITOR:

In regard to the Oct. 10 letter, the writer said he read in the paper of ministers and others complaining of taverns and closing time, also, that some would love to see them closed.

I think most of us would love to see them closed, especially when you have someone you dearly love and see him or her go to one corner tavern after another, and all you can do is just sit and watch him or her destroy their life. There is no more important thing than their families.

And do tavern owners worry about the poor drunken man or woman? No, they do not. They already have what they want—the money.

Today, most of us can't stand our heavy loads and burdens, so what do most people do? They turn to drinking. They think it's easier that way, but it really isn't.

I'm sure tavern owners could find more suitable jobs, and they would find more happiness in other work.

Just think how wonderful it would be to live in a world free of taverns, and let those that make it drink it and get poisoned.

MRS. RUBY SINGLETON, 2820 Lincoln avenue

SEES DANGER TO U. S. IN DISARMAMENT PLAN TO THE EDITOR:

What do you think would happen if all the test ban proposals and disarmament treaties were passed?

The disarmament treaty presented at the Geneva conference no doubt would have these eventual results:

1. American independence would be destroyed.

2. The Declaration of Independence would become an obsolete document.

3. The U. S. A. would be kept under control of a uniformed UN police force made up of foreign soldiers.

4. Our young men would be put

Press-Record "Vital Statistics"

As Newspaper Observes National "Week"

Statistics, quite often, are boring, but since this is National Newspaper Week, thought we might have some interest in the Press-Record's vital statistics. Here are a few:

The Press-Record is one of the oldest institutions in the Quad-Cities, dating back to the turn of the century. Every printed page since 1903 is on microfilm.

Between 800,000 and 1,000,000 pounds of newspaper are consumed annually, enough to print over 1,750,000 Press-Records on a yet to be determined size.

Between 130 and 140 newswriters are in business for themselves, selling the Press-Record each Monday and Thursday.

Over 50 full and part-time employees are on the newspaper's payroll, 32 of whom live in the Quad-Cities and most of them own their own homes.

Eighteen people, six full-time and 12 part-time, are on the news and editorial staffs, covering the Quad-Cities with words and pictures.

The Press-Record payroll averages between \$1,000 and \$1,200.

Taxes to help support local schools, parks, city, township, etc., are in excess of \$40 per workday.

These statistics give some idea of the size and scope of your Press-Record.

Even Liberals Of Party Now Joining Conservative Bandwagon

There is not much doubt that Senator Goldwater, conservative Arizona Republican, at least judging by Illinois trends.

With even Charles H. Percy—a GOP liberal and one of the announced gubernatorial candidates—describing Goldwater as the only candidate who can unite the Republican party, it is evident that the senator's still-unofficial campaign is gathering such widespread support that it is virtually impossible to stop. In any case, the Goldwater boom already ranks as the major political development of 1963.

Whether the bandwagon will encounter a steeper road after the nominating convention than before remains to be seen. The answer probably will be the top news event of 1964.

Nothing Unpatriotic About Hootenanny Folk Music

The folk music "hootenanny" is mushrooming in popularity faster than countless pennies. Iads, so much so that it is hard to believe the fact expressed on the floor of Congress by a Communist inspired. Even if true, so many millions have joined the movement since it could hardly be dominated by a small group of conspirators.

Perhaps the speculation arose from the fact that the major appeal of hootenannies is to those of the college age. Communists traditionally have chosen young people as their youth targets.

It is correct to note that a large number of folk songs—"Where Have All the Flowers Gone?" is an example—stress the joys of peace and the tragedy of war. But folk music for years has expressed the deep yearnings of people, such as their universal desire to avoid armed conflict.

Peace can best be maintained by remaining militarily strong, which hootenanny enthusiasts recognize. Americans have always sought peace, but have always taken up arms when called upon by their country. The 1960s are no exception.

From under the wheels of a car, Parents of this community voted on election day that many as vote in any major election. The Press-Record headline was "Michigan Party's Schuler Critic of Almost 2 To 1."

As we were discussing the matter and what the Press had to say about the opposition party, there was a stream of brakes and a flash. When we arrived at the scene, a car was being pushed from over the body of a man.

In front of where the car had stopped was a cardboard sign printed with a red background. It read: "Give us a playground." These signs had been put up by a group of children.

There are at least ten times as many cars on the road as there are ten years ago, for example. Drivers inexperienced.

It might be added that this involves some dangers. With that, there is an increase in the number of new drivers on the road—people who have not driven before, and who in many cases had not even been passengers before.

Now they are full owners, and occasionally their driving habits show this inexperience.

One of the results of this car boom is that everywhere you travel in Europe there are now driving schools.

And there are many other signs of this new prosperity.

More Peace, Less Crime. In one German city I visited last year, I asked a local official with whom I had been acquainted during my Army service.

"There's your big German Shepherd dog," I asked, as I recalled the handsome but powerful dog he and the other officials kept in the office.

"We don't have any more," he responded. "We don't need

## Autumn In The Quad-Cities

—Unmistakably On The Way

It has been simply too warm to conjure up the traditional visions of spectacular fall beauty in the "great outdoors," but autumn unmistakably is on the way, bringing a Midas touch to the countryside and even to populated areas. Our advice is to select this weekend, or a day within the next several weeks, to commune with nature and marvel at her harvest-time magic.

Although the air is not yet crisp, there are advance signs of the glory that is to come. A soft autumn color has begun to blend with the red of birches and the purple-red of ivy. Birches are changing from green to light yellow, and elms are taking on a hue of golden brown. Next, maples and oaks will deepen their hues. As the Master Painter continues to swing his brush, wooded areas such as the Ozarks will glow brilliantly in the sun, which already is projecting its rays from a lower angle.

Autumn in America is a blending of reds and scarlets, wines and browns, oranges and golds—a time of change and poignancy and joy. Do not miss the opportunity to enjoy it to the full; it will not return for a year.

Curtain About To Rise On New Concert Season

One of the leading cultural programs in the Quad-Cities is that sponsored by the Community Concert Association, which has completed arrangements to open its 1963-64 series with an appearance by the Nettle Fisher Ballet Co. Oct. 31. Seating concerts will be by a baritone soloist Nov. 18, a boys' choir Feb. 9 and a pianist May 5.

The more than 700 memberships have been "sold out" for the current series, but the association is embarking on an informational campaign to encourage, full attendance, rather than the average turnout of 300 or 400. Members who cannot attend are being asked to pass their tickets along to non-members. Participation also is being urged in the Alton and Belleville concerts, free to local association members.

Now in their eleventh year, the Tri-City Community Concerts have been a source of understanding and appreciation of fine music and drama. The community is eagerly awaiting the opening curtain of the new season.

Rabies Still A Threat In Illinois This Fall

Although commonly associated with summer months, rabies remains a threat this fall, the State Health Department is warning that dog owners—especially hunters who use their dogs in the field—make certain their pets have been vaccinated.

Rabies is expected to remain a public health threat as long as wild animals, such as skunks, provide a reservoir for the disease. Seventy cases of rabies in skunks have been reported in Illinois during 1963. There has been a slight reduction in the number of humans treated, 594 so far this year, compared to 636 at a similar time a year ago.

The disease must be considered a deadly hazard, because if it appears in a person, he dies; at that stage, there is no known cure for the virus, which attacks the central nervous system.

Records show no Illinois rabies deaths since 1954, but hundreds of children and adults appear in a year undergo long and painful anti-rabies treatments after being bitten by animals that either have rabies or cannot be tied up for observation.

Whether or not this is a rabies problem, treatment for rabies is essential.

There is hope that at some time in the far distant future, all diseases can be conquered.

When the bite is close to the head, immediate treatment for rabies is essential.

Warning Signals Needed At Maryville Road Crossing

Growth of the nearby residential area has added to the vehicular traffic volume at the Maryville road railroad crossing, which should have automatic flashing lights to aid motorists in avoiding oncoming trains.

Accidents will never be entirely eliminated as long as there are one-level crossings. But to leave the Maryville road tracks ungarded during all types of adverse weather conditions is tempting fate too far—as indicated by last week's crossing fatality and previous deaths there.

Costs of the guided tours range from \$750 to \$2250.

Costless Driving Arrest

William D. Ridings, 20, of 4788 Kamooki road, was arrested by Granite City police at 2 p.m. Monday at 20th street and Madison avenue on a charge of careless driving.

Investment

We cannot expect to pay, dramatically elsewhere as it has in Western Europe, but clearly progress must be made in our own future.

Whatever disagreements a person may have with the views of DeGaulle or some other European political leaders, it is a fact that the European free world prospering as it is.

It's one of the happier omens for the future.

COMMUNITY LEADERSHIP MOVEMENT

Press Is Mirror-Of Good Or Bad

(Below are the National Newspaper Week views of Oscar Griffin, who won the Pulitzer Prize for reporting this year while operating the Press, Tex., Independent. He is credited with bringing to light the Bullitt case.)

The reporter flicked on the bedside lamp and tried to rub the sleep from his eyes before he grabbed the jangling telephone. It was 1:30 a.m.

"I wanted to call and tell you how much I think you are a caliber. You've ruined a man and his family for life. And I bet you're sitting around right now gloating over it," the woman said.

"No man," the reporter replied. "Until the telephone rang at this unearthly hour I was trying to get some sleep. Reporters have to work for a living. They also have to answer for what they do, just like everyone else, including the man you claim my newspaper and I ruined."

"I don't think you did," the woman said. "Good night."

It is a newspaper's job to mirror the society in which it lives. The mirror must reflect the bad around it as well as the good, unpleasant as it sometimes is.

Accompanied By Responsibility

But with that mirror goes a responsibility—and every editor is aware of it.

Editors realize the impact newspapers have on everyday life. Editors realize that newspapers make a big difference in people's lives every day, whether

that each set of canals is helped to discharge. For example, when on the right side, the left side sinuses will drain.

The Wary Of Cure-Ails

The victim of sinusitis is the target of many marketed "cure-alls."

Inhalators, sprays, plasters containing medications—a ream of products packaged to relieve the sufferer.

Because the lining of the nose and sinuses is so sensitive, a person would be wise to refrain from their use unless recommended by a physician. More harm than good can be accomplished, unless properly administered.

False Symptoms

An examination is in order because, frequently, polyps or growths in the nasal passages are present.

These create an "obstruction" which ultimately causes symptoms that mimic those of sinusitis. On removal, all traces of the disturbance disappear.

Examination, however, rules out the presence of bacteria or sensitivity and x-rays prove that no inflammation exists—it is frequently necessary to check the emotional background of the person. Because of the swelling of the nasal tissue, there is difficulty in breathing.

Normal Functions

It is believed that the function of the sinuses is to lighten the weight of the skull and give resonance and quality to the human voice. They also help in conditioning inhaled air by warming and moistening it.

However, occasionally the condition becomes chronic. The passages swell and close, thus preventing the drainage of secretions.

When this occurs, instrumental treatment may be required to open the passages.

Strangely, the location of the sinuses in the head does not aid in easy drainage. It is by changing positions when lying down that the sinuses find their way out.

Parts of the sinuses are in the system that stretched from northern Scotland to the Euphrates River in Asia Minor. Parts of the sinuses are in the system that stretched from

### 'Gay 90s' Review Set By GCHS Band At Grid Game

The Granite City high school band, directed by Louis Meek, will present a special "Gay 90s Pageant" during the half of tomorrow night's Homecoming football game with East St. Louis high school.

About 140 young musicians will be on the gridiron, with about 15 performing special acts as actors or extras. They will be attired in period costumes. The band began preparing for the show Monday morning, going over the formations to be used.

After opening ceremonies and a salute to the East St. Louis team, the Warrior band will march to the home side of the field and present "Clementine." Moving into a formation of a high hat and cane, it will play "Hand Me Down My Walking Cane," and duets wearing Gay Nineties costumes will parade around, being harassed by a villain.

"Tent" and Tumblers. Next will be a tent formation, and the band will play "Man On the Flying Trapeze" and "Tavern In Our Town." Tumblers will perform, and a villain again will be in evidence.

A love scene will follow, as the band forms a heart and plays "The Bowery" and the "Annie Rooney Waltz." A couple of "sweethearts" will appear in appropriate costumes.

Finally, the band will play the "Bully Boy March" from a three-wheeled bicycle and roll off of the field playing the "Daisy Belle Waltz" and concluding with the GCHS alma mater song.

The show as it was devised lasts 20 minutes, Meek said, but the half lasts only 15 minutes. "The only thing we can do is have cut one or two of the songs," Meek said, pondering the problem. "But all of the formations will stay."

### Homecoming Play, Coronation To Be Repeated Tonight

By RUTH COSTELLO

An old-fashioned melodrama, full of villains, heroes and heroines, opened at Granite City high school last night and will be repeated at 8 o'clock tonight as part of a week-long Homecoming celebration.

The name of the play is "Gold In The Hills" or "Dead Sister's Secret." The hero, heroine and villain are portrayed by Ray Tally, Karen Bauer and Bernie Helman.

A matinee was given Monday for the grade school students. Performances last night and tonight were scheduled for students, parents and teachers.

Committees. Candidates. Various committees and their chairmen who deserve much credit are publicity, Brenda Margulen and Theresa Pless; matinee, Brenda Margulen, Theresa Pless and Judy White; and tickets and play, Wayne Hancock. Credit also is due to Miss Mary Blackburn, speech teacher and director; Becky Shaw, student director; and Miss Sandra Lierman, speech teacher who was in charge of the specialty numbers.

### 'Y' World Service Candy Sale Set By Teens For Nov. 1-2

The teenage department of the YMCA is preparing for its World Service candy sale to be held Nov. 1-2.

"This is not the first YMCA World Service campaign to be held in our town," Brian Bronsman, director, noted. "It is, in fact, an annual event. Yet, to some of us at least, it still comes as a surprise to realize once again how far-flung an organization the YMCA is."

The list of countries where YMCAs now work reads like the roster of the United Nations. Bronsman added, operating in 82 countries and territories.

"The red triangle can be found on every continent and in most major cities of the free world. The people it reaches number in the millions."

Varied Programs. The programs offered by these YMCAs are as varied as the races, religions and cultural backgrounds of the people they serve, Bronsman said.

"In addition to such traditional activities as camping, sports, and inexpensive lodgings, overseas 'Ys' do many things not so commonly associated with the YMCA here at home."

"In India, Korea and the Philippines, for example, the 'Y' is channeling the energies of thousands into projects that upgrade living standards in rural areas. The 'Y' in Ethiopia provides underprivileged boys a priceless opportunity for education."

"In Hong Kong, rooftop 'Ys' provide a variety of activities for thousands of refugees living in huge government housing projects."

Democracy, Rights. "Less tangible but perhaps more important is the work YMCAs do to undergird democracy," Bronsman added. "'Y' members everywhere learn the practical techniques of democracy and the rights and responsibilities of good citizenship. They are strengthened, too, in the spiritual values proclaimed by all the major religions."

These are the ideals which the YMCA teenagers are working for on Nov. 1st and 2nd. These are ideals which each of us can help promote by supporting the World Service candy sale," Bronsman concluded.

The practice of wearing discolored neckties bearing the colors or registered designs of schools, universities, clubs, etc., is a practice originated in Oxford, England.

The senior class of Venice high school has chosen its Venetian candidates. This year the candidates for Venetian yearbook queen are Nancy Scaturro, Joann Daniels and Diane Weber. The candidates for king are Joe Pomeroy, Gary O'Neil and Mial Edwards.

The candidates will have their individual photographs taken Oct. 21 at a Granite City studio.

The students who have purchased their yearbooks are the only eligible students who can vote. So far, the yearbook sale for 1963-64 has been slowly progressing. If the students want to continue having a yearbook each year, the sales this year must increase.

The publications class does not have a program for their king and queen coronation. The class hopes to find some other club or organization that may have a program in which they can conduct the coronation of the Venetian king and queen.

On Monday, the editors of the yearbook will visit certain rooms in order to get pictures for the curriculum section of the yearbook. A photographer will accompany them.

Among the rooms they will visit during the day will include home ec. III, civ. physical education, Venetian candidates and the principal and superintendent of Venice high school.

Other pictures will include the area reports, Boys State representative, Venetian candidates and the principal and superintendent of Venice high school.

## Against Law To Burn Leaves On Asphalt Sts.

With the advent of falling leaves, Granite Cityans are being reminded by the city that it is unlawful to burn leaves on asphalt streets.

Heat from the fire, it was explained, damages the street surface and melts the protective seal coat, resulting in further damage during winter months caused by water and freezes.

Penalty for burning leaves on asphalt streets could be from \$5 to \$100, according to City Atty. George Filcoff Jr.

## Granite City Kiwanis Mark Newspaper Week

Continuing a yearly series of newspaper programs, the Granite City Kiwanis club had as its guest speaker Monday evening William F. Winter, Press-Record associate editor, who noted that U.S. circulation currently is at an all-time high of 59 million, exceeding the number of bottles of milk, loaves of bread or packs of cigarettes. Ninety percent of all American households—98% locally—buy newspapers, he said.

While cities with competing dailies have decreased from 352 to only 55, there has been substantial growth in suburban papers such as the Press-Record, and overall sales have risen 11% compared to a 6% adult population gain in recent years, the club was told.

As the club observed National Newspaper Week, Program Chairman Harry Marshall pointed out that for more than 25 years, Kiwanis International has honored the newspaper industry each October for its role in helping to maintain U.S. freedoms.

District Lieutenant Governor O. J. Fulton, O'Fallon, reported on the Kiwanis district convention held in Peoria and George Edwards, Evansville, lieutenant-governor-elect, told of plans for the coming year.

The club approved Linda Britt's suggestion that it begin studying sections of the U.S. constitution and amendments on a regular basis at future meetings. The club holds a weekly dinner gathering, and the study was planned for one meeting each month.

President Eugene Frey presided, and the possibility of members and wives visiting the St. Louis planetarium was discussed.

## Venice Grade Students Excell In Russian Class

Russian, an unusual language course for most high schools, is being taught to fourth, fifth and sixth grade students this year at Venice grade school.

The teacher is Rev. Basil Butchko, pastor of the Holy Assumption Russian Orthodox Catholic Church in Benld.

Students were chosen on the basis of last year's achievement records, with the five highest being eligible for the class. The 15 students are divided into four groups, with each group meeting once a week for a 40-minute period and the entire group of 15 for an hour on Fridays.

**Conversational Basis**

The course is being taught on a conversational basis plus simplified grammar needed to construct simple sentences. Father

Butchko said this is his first attempt at teaching simple grammar to such young pupils.

Roger Davis, school principal, explained the course was introduced this year on an experimental basis and is working out beyond his highest expectations.

Father Butchko holds bachelor of arts and bachelor of divinity degrees from Great Lakes College in Detroit, Mich. He has done graduate work at the University of Illinois and Southern Illinois University; and during the past summer, he studied Russian under a National Defense Education Act grant at Northwestern University.

The youngsters will be in action before the public, which is invited to attend, at the November meeting of the Venice Parent-Teacher Association.

## Fire Guts Home, Causes \$6000 Loss

A flash fire gutted the home of Mr. and Mrs. Lowell Miller, 1824 State street, at 5:30 p.m. Monday causing damage to the building estimated at \$6000. No estimate was made on damage to furnishings.

Granite City firemen said that apparently there had been a leak in the furnace during the summer months, and that the floor and furnace became saturated with gas.

As Mrs. Miller was trying to light the furnace, the saturated gas started to burn, firemen said, and cues she used to try to extinguish the fire also started to burn. The heat apparently "kicked on" the furnace blower, spreading the gas and smoke through the house and causing the flash.

The most intense fire in the 18-room frame house was contained around the furnace room, the fire department said. The fire was out at 6:30 p.m. No one was injured.

## Norwegians Pause Here In Marathon River Trip

Two bearded Norwegian fellows, passed through town the other day.

That's not too extraordinary, of course, until you consider they were traveling by kayak. A kayak is a canoe with a top covering which originated with the Eskimos.

Theirs has two seats, is 16 feet long, 2 1/2 feet wide, weighs 150 pounds and is called "Askeladden."

"Askeladden," explained Kaare Andersen, 23, "is a lucky boy in Norwegian fairy tales—like Cinderella. We need his sort of luck."

Indeed, they do. Andersen and Bjorn Braaten, 22, are en route from Portland, Ore., to New Orleans, La. By kayak, by river.

They hitched a ride on a tugboat to pass through Chain of Rocks Canal Locks No. 27 in Granite City, 400 feet of the Arsenal street in St. Louis to put their boat back in Old Man River.

**Artist And Student**  
Andersen is a commercial artist in Oslo, Braaten is a student in marine biology at the University of Oslo.

"We're taking a year off to make this trip," Braaten said.

The Norwegians arrived by ship March 20 in New York.

## Motion To Stay Filed For Hoffman In Court

A motion to stay proceedings until Jan. 2 was filed Monday in Madison county circuit court for Carl Hoffman, 26, who lived at 2111 Lincoln avenue. A hearing on the new motion is to be set.

Hoffman has been found guilty by a jury in the shooting of a Granite City Army Depot soldier on Sept. 20, 1962. The soldier was shot four times in the former Sherry's lounge, 16th street and Madison avenue, as he tried to quell a disturbance.

Hoffman has been at liberty since that time on bond.

The murder trial of Joseph Ward, 51, of New Orleans, La., which was scheduled for Monday, was continued to permit psychiatric tests to be taken. He is accused of killing his wife last August near the Fairmont race track.

## New Formula System Adopted At Hospital

Babies born at St. Elizabeth Hospital now get their first taste of this rocket-age food by way of a new, instant formula system adopted by the hospital. "This new system provides the safest possible way to feed infants in the hospital and it's cutting hospital costs, too," Sister Mary Thomas, administrator, said.

"What's more, the infant's first meals will be served at room temperature." This unique feeding system, developed after five years of research by Ross Laboratories, a leading maker of prepared infant formulas, works this way, Sister M. Thomas said:

**Outline Of Procedure**  
"The formula is sterilized in disposable bottles at the manufacturer's laboratories and shipped to the hospital in a special plastic wrapping."

"At feeding time the nurse opens each bottle of formula needed and caps it with a nipple in a plastic cover. That's it—no more sterilizing, mixing, adding, bottling, bottle-warming. The baby's bottle is ready in two steps."

According to doctors at the hospital, there's no room for human error in preparation such as accidentally using salt instead of sugar in the infant's formula. It's made under rigid standards of quality control before it leaves the manufacturer's plant and delivered ready to feed. The new system, Sister M. Thomas said, will probably reduce the cost of formula feeding more than half. With the elimination of time-consuming procedures, like bottle washing, formula mixing and so forth, the personnel who worked in the formula room are free to perform other important duties in the hospital.

**Used In 200 Hospitals**  
"We're always looking for ways to improve the efficiency of our hospital," she added, "and this new system appears to be doing just that. We know that about 200 U. S. hospitals are now using the system."

No one's asked the babies how they feel about the new, instant system, although they are doing fine on the formula. By the time they're worried about such things, they'll probably be taking trips to the moon—the system will work there, too, hospital authorities commented.

**Mitchell Kiwanians  
Discuss Fall Festival**  
Attendance at the District 14 Kiwanis Club fall festival was discussed Monday night by the Mitchell Kiwanians. Seven members were present.

The festival will be Nov. 7 in Belleville. A report on the club's junior bowling program also was heard.

**FEEDING NEW INSTANT** formula to Matthew Lewis Windsor, infant son of Mr. and Mrs. Lewis Windsor, 7700 North 28th street, is Nurse Rose Marie Tax at St. Elizabeth Hospital.

### Pleads Innocent To After Hours Bar Sales
